

Partners For Water 2025 Annual Report

In 2025 we stepped up our maintenance activities to ensure that the water projects we have developed remain viable. This has resulted in 46 of 47 water projects completed to date continuing to produce water.

These stepped-up maintenance efforts combined with the new projects that were completed this year bring water to over 40,000 people everyday.

Projects Completed: 4

- ❖ Angwan Maigana Karshi,
Nasarawa State, Nigeria
- ❖ Asort Panda, Nasarawa
State, Nigeria

- ❖ Project Cost: \$5,144.00 USD

Financial

- Fundraisers & Donations: \$29,463.63
- Expenses & Water Project Costs: \$33,912.00

2025 was a year of enlightenment and rejuvenation.

Our team in Nigeria learned they could effectively continue in the mission without the physical guidance of Dr. Chuga and our team in the United States learned that the team in Nigeria was more than capable of continuing in the mission. This was refreshing and exciting for both teams.
